

MULTI-VIEWING BIOLOGICAL MICROSCOPE

LMB-A1SERIES

Multi-Viewing Biological Microscope LMB-A1 Series

Multi-viewing biological microscope LMB-A1 series is designed to observe one specimen by several people together at the same time. These multi-viewing microscopes have fine focusing knob adjustment for sharp and clear image of the specimen. This modular microscope has high S-LED as a source of illumination. They are suitable for demonstration & teaching purpose. They are user-friendly and highly reliable.

Features

- 🔍 Sliding type binocular head & monocular head inclined at 45°
- 🔍 S-LED illumination source with adjustable brightness
- 🔍 Achromatic objectives 4x, 10x, 40x(s), 100x(s,oil)
- 🔍 Quadruple nosepiece
- 🔍 Wide field eyepiece WF10X
- 🔍 Abbe condenser N.A. 1.25

Applications

Multi-viewing biological microscope are useful in clinical and medical research, pathology, molecular biology, education for teaching and demonstration purpose. Also they are useful in research institutes.

Multi-Viewing Biological Microscope LMB-A1 Series

Specifications

Model No.	LMB-A10	LMB-A11	LMB-A12
Viewing Head			
Sliding type binocular head, inclined at 45°	5 pcs	1 pcs	2 pcs
Monocular head, inclined at 45°	Nil	2 pcs	Nil
Eyepiece	Wide field eyepiece WF10X (10 pcs)	Wide field eyepiece WF10X (4 pcs)	
Illumination	S-LED Illumination, brightness adjustable		
Nosepiece	Quadruple nosepiece		
Objective	Achromatic objective 4x, 10x, 40x(s), 100x(s,oil)		
Condenser	Abbe condenser N.A. 1.25		
focusing	Coaxial coarse & fine focus adjustment, fine division 0.002mm		
Stag	Double layer mechanical stage: 140×140mm Moving stage: 75×50mm		
Pointer	Green LED pointer, brightness adjustable	Nil	Nil
Optional Illumination outfit	Halogen lamp 24V/50W or 100W	Halogen lamp 6V/20W
